ABOUT US

We are a well-equipped Super Speciality Hospital in Chengannur, Kerala, providing world-class healthcare services since 2021. We were established under the expert Chairmanship of International Industrialist & Healthcare Management expert Shri. P. M. Sebastian.

OUR MISSION

To provide value-based patient care of global standard to all and continued development of subspecialties to make a high-volume center with a thrust to reach the unreached and meet their medical needs in an advanced leading-edge treatment facility. We are committed to provide holistic healthcare in a transparent and receptive surrounding.

OUR VISION

To become a healthcare centre with professional excellence of international standard at affordable cost with self-motivated team of medical and non-medical professionals stressing on 'people first approach'.

OUR CORE VALUES

- We are committed to providing fair, uniform and quality healthcare to our patients.
- We strive to identify and meet the needs of our patients, clinicians, and staff to establish continual development of our specialities.
- We provide uniform patient care and treatment using evidence-based medicine for excellent clinical outcomes.
- We work towards enhancing the knowledge of our staff, patients, and clinicians.
- We make consistent efforts to improve the quality of our systems so we can deliver the benefits of the treatments to our patients.

CHAIRMAN'S MESSAGE

Shri. P. M. Sebastian
Chairman

Life is our greatest gift, where every moment is as new as it is special. Life is about living every second to the fullest and about making everyday an experience to enjoy and cherish. We at Dr. KM Cherian Institute of Medical Sciences, cherish every moment spent in making your life healthier. We are committed to provide world-class medical care with the best medical talent and we aim that our hospital leaves an indelible mark in the heart of every patient and their family members.

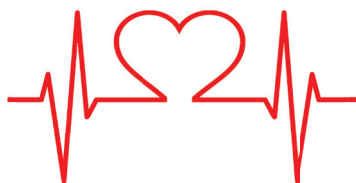

Our mission is to be an excellent value driven institution and research centre marked by quality and commitment. Our intent is to improve the health and well-being of the citizens in the region and the society at large.
