Advancing Healthcare with a Multi-Organ Transplantation

Transforming Lives through Advanced Transplant Care

At Dr. KM Cheriai Institute of Medical Sciences, we are committed to providing world-class medical care and advanced treatment options to our patients. Our Multi-Organ Transplant Program stands at the forefront of medical innovation, offering life-saving procedures for patients with end-stage organ failure.

Vision

To be a leading centre of excellence in multi-organ transplantation, providing compassionate care to patients with end-stage organ disease and advancing the field of transplantation through research, education and community outreach.

Mission

Our mission is to provide comprehensive, patient-centred care to those in need of organ transplantation. We are committed to:

- Delivering exceptional clinical outcomes through a multidisciplinary team approach.
- Advancing the field of transplantation through innovative research and education.
- Fostering a culture of compassion, empathy and respect for our patients and their families.
- Promoting organ donation and transplantation awareness in continuously improving our processes and outcomes to achieve excellence in patient care.

Our Expertise

Our transplant team consists of highly skilled and experienced surgeons, physicians, anaesthesiologists, transplant coordinator, nurses and support staff who specialize in organ transplantation. Our multidisciplinary approach ensures that each patient receives personalized care tailored to their unique needs.

ORGANS WE TRANSPLANT

Heart Transplant: Helping patients with advanced heart failure to regain their health and vitality.

Kidney Transplant: Offering hope to patients with chronic kidney disease and end-stage renal failure.

Liver Transplant: Providing a lifeline to patients with acute and chronic liver diseases.

Pancreas Transplant: Improving quality of life for selected patients with complex metabolic disorders.

Small Intestine Transplant: Advanced surgical solutions for patients with intestinal failure.

Why Consider a Transplant?

- Improves quality of life.
- Increases life expectancy.
- Complete freedom from physical and mental difficulties associated with dialysis treatments (Renal patients).
- Improvement in sexual and reproductive function.

Comprehensive Care

From pre-transplant evaluation and surgery to post-transplant follow-up and rehabilitation, our program provides comprehensive care at every step of the transplant journey. We employ state-of-the-art technology and the latest medical protocols to ensure the best possible outcomes for our patients.

Patient Support

Understanding that organ transplantation can be a daunting process, we offer extensive support services to our patients and their families. Our transplant coordinators guide patients through the entire process, from initial consultation to recovery, ensuring they have access to the information and resources they need.

Why Choose Dr. KM Cherian Institute of Medical Sciences?

Expert Team: A multidisciplinary team of transplant surgeons, physicians, anesthetists, nurses, transplant coordinators and support staff with extensive experience and specialized training.

Cutting-Edge Technology: We utilize the latest advancements in medical technology to perform complex transplant surgeries.

Comprehensive Care: From pre-transplant evaluation and surgery to post-transplant follow-up and rehabilitation, we provide holistic and personalized care at every step.

Patient-Centred Approach: We prioritize the well-being and comfort of our patients, providing compassionate care at all times.

Legal Documentation: Our programme will be strictly governed by the Transplantation of Human Organs Act 1994 and under the guidance of Kerala State Organ and Tissues Transplant Organisation (K-SOTTO), Government of Kerala. The goal is to provide ethical and transparent therapeutic process to avoid commercial dealings in human organs.
